The Format of Cornell Notes

Name Date **Subject of Notes**

QUESTIONS

Write questions that you don't know the answer to. Some suggestions are: question if references are real, question characters' motives, question why a person acted, or question what may happen next.

Good questions may start with **how why** or **if**.

NOTES

Write what you think is the most important from the text. Think about what type of text it is. What is important, changes with different types of texts. If it's a story, you may take notes on personality traits of each character and important events of the story. If it is a non-fiction text, you may write important dates or facts.

Don't copy entire passages. Paraphrase, use minimal words, and always write where you get information from.

Keep your notes organized. Use numbers, bullet points, skip lines, highlight, make headings, charts, or anything else that make it easy for anyone to understand.

Examples of what may appear in your notes
